

# February 2025

Does early treatment with highly effective DMT improve prognosis for people with MS?

## WELCOME TO THE DELIVER-MS NEWSLETTER

We would like to thank all the sites for their efforts on both DELIVER-MS and DELIVER-MS Long Term Extension (LTE). For DELIVER-LTE there are 14 sites that have enrolled at least one patient and 1 site pending activation. We have also started tracking patients who have already reached M48 and have not enrolled in the LTE. Please reach out if you have any questions about enrollment!

\*2 patients from Cardiff have transferred to Bristol and 1 from Nottingham to Leeds\*

## REMINDERS

- Please push EVERY visit to QA-data can't be downloaded unless a visit is in QA
- Complete M36 MRIs on the DELIVER approved scanner is a must and should be done without exception in the RCT trial participants!**
- MRIs in the LTE are flexible and preferred on DELIVER approved scanner if possible
- Please continue to update the DMT summary forms at M36
- Be sure to maintain follow-up on all participants

## DELIVER-MS LTE ELIGIBILITY

- If a participant comes off or changes DMT, becomes pregnant, or was previously loss to follow-up and reappears they are still eligible for LTE

## DMT FORM

One of the most important aspects of DELIVER-MS is finding out what happens to participant's medications as they journey through the trial. We'd really like to capture when people stop/switch medications or change their dosing schedule. We would like to continue monitoring their progress even on the new medication/off medications. We want to capture everything that normally happens during a participant's MS treatment plan.

- DMT Summary form should be updated with any start/stop/dose changes in DMT occurring since the last DELIVER or DELIVER LTE visit. Please include all medications and all changes!

- For example, someone who completed DELIVER (M36) then misses a M48 LTE visit and enrolls in LTE at M60, the DMT Summary filled out at M60 should include all changes from M36 through M60

## FINAL THOUGHTS

We want to thank you all for your ongoing dedication to DELIVER-MS and now the LTE. Please reach out to our team if you have any questions!
